July 12, 1958

To: Mrs Bessie Jackson

From: Boatowners of Marshallberg, N. C.

Subject: Marshallberg Harbor

In view of recent developments concerning the harbor at Marshallberg copy of letter received from Dept. of Engineers enclosed, we the undersigned find it necessary to ask for permission to tie our boats and build small docks and moorings on or adjacent to your property. It is mutually understood that we will not build any buildings or in any way deface your property and will comply with anything you would authorize concerning said moorings.

This permission would be greatly appreciated by all of us. Since during the dredging of the harbor our original moorings were destroyed we have no place to leave our boats except said harbor and it is impossible to use the harbor without the landowners permission, it is most urgent that we receive your written reply within a few days so we can make arrangements accordingly. Please send reply to Mr. Norman Fulcher of Marshallberg N. C. If there is any way we can help you in any or all of your endeavors to conserve your property concerning Corps of Engineers or any other governing body we will be very happy to do so.

Sincerely yours,
Boatowners of Marshallberg, N. C.
